## DIRECTORY OF NON-PUBLIC SCHOOLS

California State Education Code Section 33190 requires all private elementary and high schools to annually register with the State Superintendent of Public Instruction. Education Code Section 48222 provides that attendance at a private school exempts a child from compulsory attendance at a public school only if the private school has met the requirements of Education Code Section 33190.

The California State Department of Education does not approve, license, or accredit private elementary or secondary schools. The schools listed in this Directory are those certified as having submitted correct and complete affidavits and have requested to be listed in this directory.

*Questions regarding certification should be directed to the Demographics Unit, California State Department of Education, telephone number (916) 657-3812.*

Blank copies of Form R-4, the "Private School Affidavit" are available from:

**California Department of Education  
1430 N Street, Fourth Floor  
Sacramento, CA 95814**

Online information regarding private schools in California is available at:
