## **TECHNOLOGY PLAN**

The Monterey County Board of Education (County Board) recognizes that technology can greatly enhance the instructional program as well as the efficiency of district and school site administration. The County Board also realizes that careful planning is essential to ensure the successful, equitable and cost-effective implementation of technology-based materials, equipment, systems and networks.

The Monterey County Superintendent of Schools shall develop a plan to address the short- and long-term technology needs of the Monterey County Office of Education (County Office) and provide for compatibility of resources among school sites, and other County Office operations.
