

## **SCHOOL ACCOUNTABILITY REPORT CARD**

The Monterey County Board of Education recognizes its responsibility to inform parents/guardians and the community about the conditions, needs, and progress of schools operated by the Monterey County Office of Education. The process of gathering and analyzing data also provides opportunities for the staff to review achievements and identify areas for improvement.

The Superintendent or designee shall annually publicize the issuance of the School Accountability Report Cards (SARCs). On or before February 1 of each year, the Superintendent or designee shall make the SARCs available in paper copy and on the Internet, and notify parents/guardians that a paper copy will be provided upon request.

In addition, pursuant to 20 USC 6311, any school that receives Title I, Part A funding must prepare and disseminate an annual report card which includes specified information regarding student achievement on statewide academic assessments, indicators of adequate yearly progress, whether the school has been identified for program improvement, graduation rates, and teacher qualifications. Rather than issuing a special school-level report card, the school is allowed to incorporate the information into the SARC.

In preparing the report cards, the Superintendent or designee may choose to use or adapt the model template provided by the California Department of Education. If the model template is not used, the Superintendent or designee shall ensure that data are reported in a manner that is consistent with the definitions for school conditions as provided in the template. At least every three years, the Superintendent or designee shall compare the content of the report cards to the state's model template, recognizing that variances are allowed by law as necessary to meet local needs.

The Board shall annually review the SARCs before their publication and shall evaluate the data contained in the SARCs as part of the Board's regular review process of the county's programs.

The County Superintendent shall develop strategies for communicating the information contained in the SARCs to all stakeholders, including opportunities for staff and the community to discuss their content.
