## SESSION FAQS

### Should the district's LCAP be revised now?

It depends. As the new template is considered, are there significant changes the district would like to make at this point in time. If the revisions are to be made after Nov 13th, it is recommended to use the new template.

### What process should be used?

The same process as was initially used. Meetings with stakeholders, communication with the school board, etc. For more information, please contact MCOE staff.

### What should districts be considering now?

Is the district ready for fiscal and program accounting? What metrics will be used and how? What do the sites need? What modifications might be made in preparation for the 2015-16 LCAP?
